Coordinated Care Services

I have a masters of health education which I received from Idaho State University. I've worked in the field of Developmental Disabilities since 1997. I love working with people! I had my own service coordination business for 5 1/2 yrs and was hired by the ICDE at the beginning of its inception. I really missed working with the participants and decided to go back into the field after 5 years with ICDE. I started my own business again in 2008 and work as a service coordinator and support broker for eligible Medicaid participants
